Professional Summary

Strategic and results-driven Technology Product Manager with over 15 years of experience leading cross-functional teams to build, launch, and scale innovative SaaS products. Expertise in translating market needs into compelling product strategies, optimizing development processes, and delivering revenue-enhancing improvements. Adept at managing all phases of the product lifecycle, from ideation to launch, with a proven ability to drive user-focused enhancements and exceed KPIs.

Professional Experience**Senior Product Manager**

Tech Innovate Solutions | San Francisco, CA

March 2016 – Present

- Spearheaded product strategy for the company's flagship SaaS platform, resulting in a 40% increase in revenue within 18 months.
- Led a team of 10+ engineers, designers, and analysts, implementing Agile methodologies to streamline development cycles and improve product delivery by 25%.
- Successfully launched over 20 new features, increasing user retention by 30% and reducing churn by 18%.
- Conducted market research and competitive analysis, identifying gaps that led to three major product differentiators and secured \$5M in new contracts.
- Collaborated with marketing and sales teams to refine go-to-market strategies, contributing to a 50% increase in conversion rates year-over-year.

Product Manager

Innovatech Solutions | Los Angeles, CA

January 2011 – February 2016

- Managed end-to-end product development for a cloud-based collaboration tool that grew to support 500,000+ active users within two years.
- Increased product revenue by 20% through targeted feature enhancements and data-driven optimization efforts.
- Built strong relationships with key stakeholders, including engineering, UX/UI, and data analytics teams, to ensure alignment on product vision and priorities.
- Oversaw the rollout of an advanced analytics dashboard, providing customers with actionable insights and contributing to a 15% growth in upsell opportunities.
- Drove cross-functional workshops to improve product knowledge and adoption among internal sales teams, leading to a 35% increase in customer engagement.

Associate Product Manager

Digital Dynamics Corp. | San Diego, CA

July 2008 – December 2010

- Supported product development for a mobile-first application that ranked in the top 10 in its category on the App Store within its first year.
- Conducted user testing and feedback sessions that informed a significant UI overhaul, increasing user satisfaction scores by 20%.
- Coordinated with engineering to prioritize backlog items, resulting in a 30% decrease in bug-related customer support tickets.
- Contributed to market research efforts, identifying emerging trends and providing insights that shaped the product's roadmap and positioning.
